Education

- Udemy
  The Complete JavaScript Course 2022: From Zero to Expert! - learned how to work with JS.
  React - The Complete Guide (incl Hooks, React Router, Redux) - I took what I have learned in the JS course and upgrade.
  CSS essentials course - learn how to style things and make responsive webs.
  HTML essentials course - learned the structure of an HTML.
  Build modern responsive websites - started to make some little projects using HTML & CSS.

Skills

Teamwork - Experienced

Creativity - Expert

Problem-solving - Expert

Communication - Expert

Summary

Highly motivated and a quick learner. Have the ability to fit easily into a team to learn and be challenged every day. Enjoy helping others whenever they need it. Looking for a Junior Full Stack / Frontend Developer position.

Work Experience

Fullstack/Frontend (Self-Employed)

2020 - 2022

Full stack developer who sets up websites and maintains them for clients from 2020 to 2022.
* SassiShop - https://sassishops.com/ - It's a personal e-commerce project that I made with React and Typescript to train and learn my Typescript skills. It includes Redux/toolkit for state management and Material UI for style. Enjoy and try not to buy anything
* RonShay Transportation - https://ronshay.co.il/ - WordPress
* Oplot - https://oplot.co.il/ - React
* Neo - http://www.neokapah.com/ - HTML & CSS

 JavaScript | TypeScript | React.js | Redux | Angular | HTML & CSS | SASS | REST API | Node.js | Express.js | MongoDB | MySQL | OOP
